Cryopump Service by Synergy Systems Corporation

SynSysCo has specialized in dry pumping solutions for vacuum applications since 2005. Their expertise includes semiconductor, scientific instruments, R&D, high energy physics, industrial and process vacuum, and more. In addition to engineered solutions and new products, they specialize in servicing dry pumps covered by industry leading warranties.

SynSysCo recently formed a new division called [Synergy Cryogenics](#) to perform **cryopump and compressor service and rebuilds**, offering you economic and performance benefits. All work is proudly performed in the USA.

All Brands Serviced

Make your maintenance life easier by utilizing SynSysCo for service on **CTI/Brooks (including on-board), Oxford Austin Scientific (Trillium), Sumitomo Marathon, APD, and other cryopumps.**

Economical Pricing and Longer Warranty

Choose from three tiers of cryopump service according to your needs. Please see details on the service levels and warranty at www.SynSysCo.com.

Gold service includes **24 months warranty** and replacement of the 1st and 2nd stage displacers and seals with new, proprietary components with premium performance.

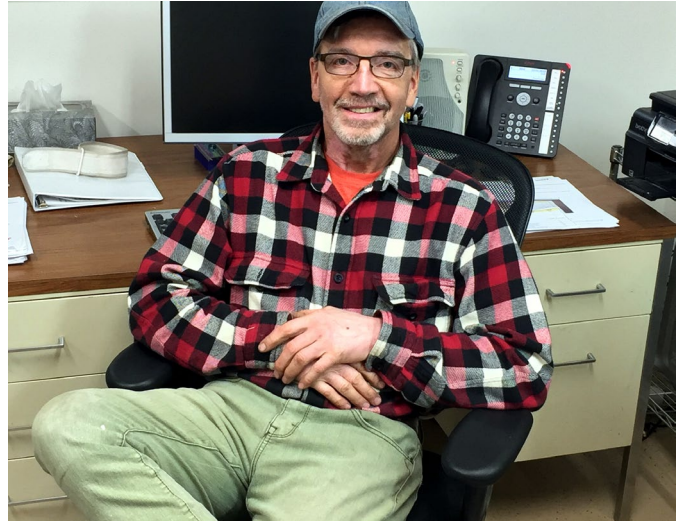

The Silver package has **18 months warranty** and is priced similarly to competitive services with only 12 months warranty.

Or you can minimize your upfront investment with the Bronze level and still get **12 months warranty.**

Personalized Support

You receive prompt service from the initial inquiry to delivery of your rebuilt pump or compressor, including technical support as you re-install it on your system. **We enjoy working with customers and don't hide behind a bureaucracy.**

Fast & Dependable Turnaround

The standard rebuilding time is 10 to 15 business days. Add 5 days for an on-board feature and 3 if decontamination is required. Expedited service is available. Your production is critical and you can count on our delivery time.

Need a new pump? We offer industry leading Sumitomo systems

SynSysCo is the North American distributor of the **Sumitomo Marathon Line** of cryopumps and compressors, ranging from 8" to 20" pumps, all made in Allentown, PA. Sumitomo's unique technologies give you the competitive edge. **Ask about the "hot swap" pump rebuild** you can quickly do in-house without removing the pump from your system or breaking vacuum.
