Open Box Demo Unit Welch DuoSeal 1402

The *DuoSeal* pumps are well known for their rugged design. These pumps have large oil reservoirs to dilute contaminants. Because the *DuoSeal* pump runs at lower rpm's, there is less friction and wear while minimizing reservoir temperature which lessens chemical reactivity.

DuoSeal pumps are commonly used in applications such as: vacuum ovens, glove boxes and general laboratory vacuum.

The *Welch DuoSeal 1402* is a open box demo unit and is backed by a 90 day warranty. Includes recommended oil. This unit is subject to prior sale.

SALE PRICE \$1800

SPECIFICATIONS

Type	Belt-Drive Vacuum Pump
Free Air Displacement CFM	5.6 cfm
Ultimate Pressure	1 x 10 ⁻⁴
Pump RPM	525
Voltage	115V, 60 Hz, 1 Ph
Motor Horsepower	1/2 HP
Weight	132 lbs
